8th Step

Now your purchase is done. The Taler will be added as fast as possible. This depends on the payment method. The normal delay is around maximal 20 minutes. The big exception is the Credit Transfer as this method will take longer than any other. As technical problem can occur the time for the Taler charge might increase. Feel free to sent a message to our Support system. The Support system is always the best choice if you encounter problems with cash shop item or the charging of fiesta Taler.

We will include more payment methods in the future.

Sincerely,

The gamigogames Team
